

## Risk Assessment Template for Opening Church Buildings to the Public

### Version Control

Issue Date	Version Number	Issued by
13 <sup>th</sup> January 2021	8	The House of Bishops COVID-19 Recovery Group

*This update has been reviewed in the light of new guidance from the [Health and Safety Executive](#) and is intended for use from 13<sup>th</sup> January onwards. Risk assessments carried out using an earlier template may still be valid but should be reviewed regularly and checked against this latest version of the risk assessment.*

England entered a third national lockdown from 5<sup>th</sup> January 2021. This replaced the three-tier system introduced in late 2020 and later augmented with a fourth tier. During the lockdown, churches are permitted to open for communal worship, private prayer and a number of essential purposes where they can be carried out in a Covid-safe way. There may be specific local regulations recommended by local authorities, that place additional restrictions on certain activities. Before completing this risk assessment you can see what is permitted by checking [this document](#). Guidance on opening cathedral and church buildings to the public during COVID-19 can be found [here](#).

The [government guidance for the safe use of places of worship during the pandemic](#) requires a COVID-19 risk assessment to be carried out for every building and site open to the public. This document provides a template risk assessment, with links to the relevant advice notes. It relates to opening up church and cathedral buildings to clergy and members of the public entering for any permitted purposes. As well as offering guidance on best practice, the template is also intended to help parishes make a decision on whether to open for any or all of these purposes or not, based on their local circumstances, resources and context. Specific guidance linking to advice on the lockdown period is available on the [Church of England Coronavirus pages](#).

The government acknowledges that places of worship play an important role in providing spiritual leadership for many individuals, and in bringing communities and generations together. However, their communal nature also makes them places that are particularly vulnerable to the spread of the virus. In drawing up a risk assessment for your church, or revising it in the light of the current situation, you will need to think carefully whether the public benefits you achieve by opening are justified by the risks involved, however much you can mitigate them. This judgement will vary depending on the location and nature of your church building and the make up of your congregation and visitor profile. You will need to discuss the factors with your governing body, whether the PCC or chapter. Remember that this is your collective choice whether to open: while our churches are permitted by

government to open, they are not obliged to do so. If you decide not to open, you can continue to have a valuable role serving the community in a number of ways. Guidance on this can be found on the [Church of England Coronavirus pages](#).

Future versions of this document will be produced when there is any substantive change to the guidance on the safe use of places of worship.

Separate risk assessments for outdoor worship and for access by contractors and construction workers are available on the [Church of England Coronavirus pages](#).

## Carrying out a risk assessment

1. Agree what activities you are planning for:
  - Private prayer
  - Public worship
  - Livestreaming or recording services
  - Funerals, weddings, baptisms
  - Formal childcare or where part of a school
  - Essential voluntary and public services
  - Use as a vaccination centre
  - Other exempted activities such as support groups
  - Opening for visitors/tourists, including opening shops and cafes

2. Consider the hazards:
  - Transmission of COVID-19
  - Hazards arising from using the church in a different way to usual

Read the guidance and think about how it relates specifically to your church. What constraints are there? Consider how people will arrive at the church, including if they will need to wait or queue outside; how people will enter and leave the church; circulation inside: from the entrance to the worship space and out again; circulation within the worship space; also access to other areas including the toilet(s).

3. Consider who might be harmed and how. Read the guidance and think about how the activities you are planning will affect different groups of people. The risks are not different for larger churches as long as they are properly managed, but having any significant numbers of people coming through your building makes the possible impact – in particular someone with COVID-19 coming into contact with others – higher than in smaller venues with fewer people. Consider your particular circumstances and adapt the checklist below as appropriate. Gathered congregations and major services may attract people from far afield, which is likely to add to the risk profile and go against the general guidance that people should stay local for any activities outside the home. Consider whether you need to consult your wider membership and users.
4. Using the risk assessment checklist below as a template:
  - add in mitigations for any risks that are particular to your circumstances that may not be on the list;
  - record what you need to do for each activity to go ahead safely;
  - consider any equipment you need and any temporary changes you might need to make to the church;
  - check back against your list of activities to confirm which ones can go ahead and when.

Not knowing who is attending if we hear later that someone present has the virus and we need to be part of “track and trace”	Anthony or a deputy will quietly note who is present. If there are new faces, he takes their details, with their permission, at the end. These collated names are added to a document in the vestry immediately after the service. The document will be dated, kept in a locked drawer (administrator and wardens will know where) and destroyed after 21 days, in line with government guidance. We have a contact point for each of our AA groups, for Children’s Church, and for any other meetings who would keep track of who attended for the same purpose.		Vicar	5 <sup>th</sup> July Anthony
